

Newton Abbot Learning Community

YEAR 5/6 Personal Challenge Festival

Wednesday 29th September 2021

Newton Abbot College held their first festival for almost two years when they hosted a years 5/6 'personal challenge' festival.

Schools from the Newton Abbot Learning Community were invited to attend. The festival had a focus on the students completing individual tasks and challenges to the best of their ability.

In total the students took part in 6 activities which each had a different focus such as throwing, catching, agility and problem solving.

PE teacher Mr Patchett said "It was brilliant to be able to host our first primary sports festival for what feels like a very long time. The students from the primary school seemed really enthused and engaged with the activities that they were taking part in. A huge thankyou to the primary staff who brought all of the students along to this event; therefore allowing the pupils to take part in sport within a positive environment"

The schools who attended were as follows:

- Wolborough**
- Bradley Barton**
- Highweek**
