

## NALC Years 3/4 BEE Netball Competition

### Competitive Competition

On Tuesday 23<sup>rd</sup> November Newton Abbot College hosted a years 3/4 BEE Netball competition. In total there were 6 teams taking part in a 'round robin' format.

The schools which took part in the competition were as follows:

- St Josephs x 2 teams
- Wolborough x 2 teams
- Highweek x 2 teams

At the start of the competition many of the teams were still learning the rules and getting to grips with basic tactics for BEE netball. Pleasantly, as the competition progressed all of the students really progressed; many of the teams were very competent at passing and moving the ball as a team for successful outcomes when attacking.

Due to the number of teams attending we were able to provide a round robin format which meant that all of the teams played five games in total.

PE teacher Mr Patchett said "this was the first time that we have hosted a flier competition due to the new format that has been introduced by England netball. Encouragingly, the new format ensures that the games can be played in a manner that sees teams transition from attack to defence in a very quick manner. All of the year 3/4 students really developed and improved as the competition went on. A huge well done to the teaching staff who brought these students to the competition also despite all of the challenges they would have faced to do so"

After all of the games that took place, the top two teams were both of the St Joseph's sides.
